24-Hour Full Stack Development (MERN) Hackathon

17th June 2026 & 18th June 2026 | 7:00 AM – 7:00 PM

All Third-Year B.Tech students of **CSE (AI & ML)** and **CSE (Data Science)** are hereby informed that a **24-Hour Hackathon** will be conducted on **17th and 18th June 2026**. Students who have attended the Full Stack Development (MERN) training program are encouraged to participate and showcase their skills.

Event Details

Date	17th June 2026 & 18th June 2026
Duration	24 Hours 17-06-2026: 7:00 AM to 7:00 PM & 18-06-2026: 7:00 AM to 7:00 PM
Venue	Lab Room No. 247
Reporting Time	6:45 AM on 17th June 2026 (sharp)

Cash Prizes

Rank	Prize	Amount
☐ 1st Place	Winner	₹10,000
☐ 2nd Place	Runner-Up	₹7,500
☐ 3rd Place	Second Runner-Up	₹5,000

* Certificates of participation will be awarded to all registered teams.

Team Formation Rules

- Each team must consist of exactly 4 students from CSE (AI & ML) or CSE (Data Science).
- All team members must have attended all days of the Full Stack Development (MERN) training program.
- One team leader must be designated for communication purposes.
- Team composition cannot be changed after registration.
- Teams must register via the prescribed Google Form, providing:
 - Team name and names of all members
 - Project title and proposed functionalities

General Rules & Regulations

- Students must report by 6:45 AM and remain present throughout the hackathon.
- The application must be developed entirely during the hackathon hours.
- Use of open-source libraries, npm packages, documentation, and online references is permitted.

PRASAD V. POTLURI SIDDHARTHA INSTITUTE OF TECHNOLOGY

(Autonomous) | Kanuru, Vijayawada

Department of CSE (AI & ML) and CSE (Data Science)

- Direct copying of complete projects from GitHub, YouTube, or any other source is strictly prohibited and will result in disqualification.
- AI tools (e.g., ChatGPT, GitHub Copilot) may be used only for guidance, debugging, and understanding — teams must be able to explain every line of code.
- Each team must maintain a GitHub repository with a meaningful commit history throughout the event.
- Each team must submit the following before the deadline:
 - GitHub repository link (with commit history)
 - Live deployed application link
 - Project report or README file
 - PPT / demo presentation
- The application must include both a functional frontend and backend.
- Final projects must be demonstrated live before the jury panel.
- Any malpractice, plagiarism, or non-working submission will lead to immediate disqualification.
- Development must follow Software Engineering best practices: requirement analysis, design, implementation, testing, version control, and documentation.

Mandatory Technical Requirements

Every submitted project must incorporate all of the following:

✓ Clean folder structure (frontend & backend)	✓ Form validation & error handling
✓ User authentication & authorization	✓ Search, filter & sorting features
✓ Role-based access control (where applicable)	✓ Dashboard or analytics page
✓ CRUD operations	✓ Deployment on any platform
✓ REST API integration	✓ Proper README documentation
✓ MongoDB database schema	✓ GitHub version control with meaningful commits
✓ Responsive React UI	✓ Live deployed application link
